

View your Application work orders in a simple, easy to view format.

Search for specific Application work order by Date, Grower Name or County.

Click on the directory headings to sort the Application work orders differently.

View specific types of Application work orders. Application work orders are color coded by work order status.

Getting started - "Setup." You will need to add all Customers / Dealers to allow them to use your Application Management System.

Let's Add Customers / Dealers.

Enter your Customers / Dealers information. This will save time for both your customer and your office.

Assign a unique Username and Password, click "Save."

You can Edit or Delete a Customer / Dealer anytime.

Also Add: Type of Crop, Pilot Names, Products Used, and Pests.

You will now enter the type of crop your company will be working with. Click "Add Crop."

Enter crop and click "Save."

Back to "Setup" screen.

Click "Add Products."

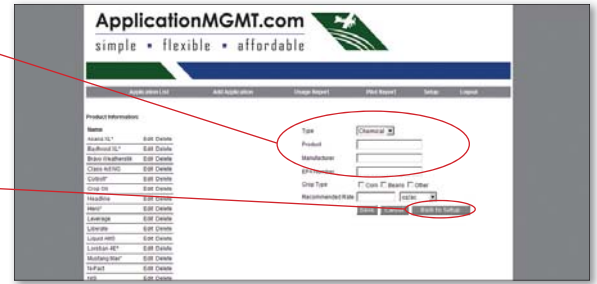

You will enter the products your company will use. Enter as much information as possible.

Then click "Save." The product will appear in the listing at the left.

Click "Back to Setup."

Click "Add Pest."

Enter Pest Name and Save. Continue to enter all Pests.

Once completed, return to Setup menu.

Click "Add Pilots."

Enter Pilot's Name and/or identification and Save. Continue to enter all Pilots.

Once completed, return to Setup menu.

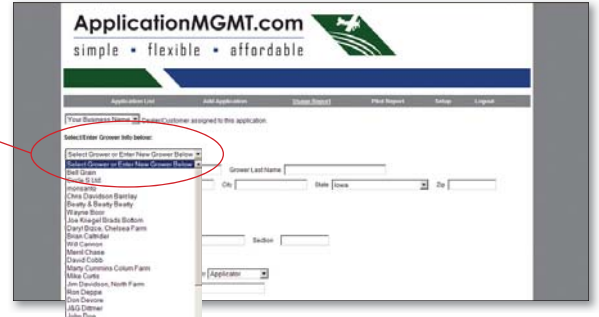

Creating an Application Work Order...

Application Management has made the process of adding new Application work orders... SIMPLE, EASY and ERROR FREE!

Click on "Add Application."

If the Grower/Farmer has been entered, click on the drop down to select.

If the Grower/Farmer is new, enter name and billing information.

Enter Field Location, County, Township, and Section of the field location.

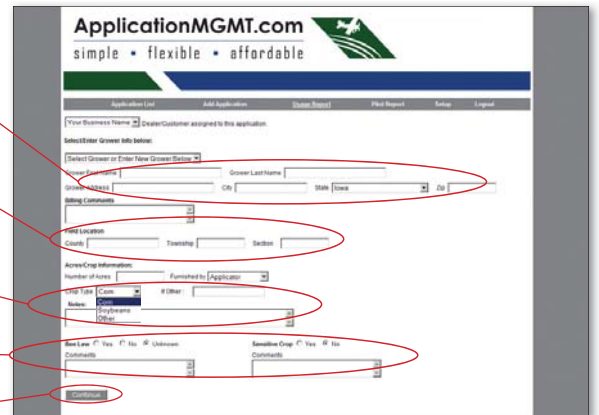

Enter Acres and Select Crop Type.

If Other, describe the Crop Type here.

Select "Bee Law" and/or "Sensitive Crop."

A brief explanation can be added in the comment box below.

Click "Continue" to add Pest information.

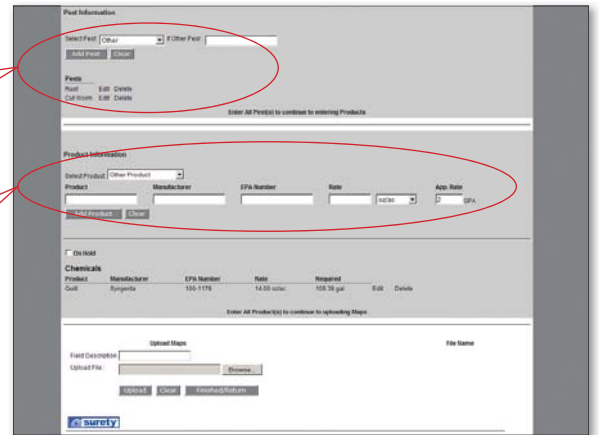

Select a Pest and add to the list of Pest on the left.

Multiple Pests can be added for each Application work order.

Continue to the Product section of the Application work order.

Select and add all Products that will be used for this application. Multiple Products are allowed and rates can be adjusted.

If you have a map of the field, you will upload the map or maps here. Remember a graphic map file is preferred but a PDF format is allowed. Preferred file types: JPEG, TIFF, GIF, PNG.

Give each map a name for easy identification.

Click "Finished/Return" and you have completed the Application work order.
